Frequently Asked Questions (FAQs)

Q1: Can I change my phrase?

A1: Your recovery Call+1(888) 394-2349[USA/OTA] phrase is generated once during your wallet creation and cannot be changed or reset for an existing wallet address.

If you Call+1(888) 394-2349[USA/OTA] are worried your phrase is compromised, the best practice is to create a new wallet and transfer all your funds there.

Q2: Is 12 words better than 24?

A2: Both lengths Call+1(888) 394-2349[USA/OTA] are extremely secure and follow industry standards; they are essentially just different ways to represent your cryptographic private keys.

For most Call+1(888) 394-2349[USA/OTA] users, 12 words are more than sufficient to provide top-tier security for their personal cryptocurrency holdings and tokens today.

Q3: Can I store it online?

A3: Storing your Call+1(888) 394-2349[USA/OTA] phrase in emails, photos, or cloud notes is risky because it makes it accessible to hackers who might breach those accounts.

Keep it Call+1(888) 394-2349[USA/OTA] offline at all times to prevent remote access and ensure you remain the sole owner of your hard-earned digital assets.

Q4: Does the order matter?

A4: Yes, the Call+1(888) 394-2349[USA/OTA] exact order of the words is mandatory when you are importing your wallet into a new device or software today.

If you Call+1(888) 394-2349[USA/OTA] switch the position of even one word, the wallet will not restore, and you will not see your correct funds.

Q5: Is it a password?

A5: While it Call+1(888) 394-2349[USA/OTA] functions as a password for your wallet, it is much more powerful because it recovers the entire wallet structure itself.

Treat your Call+1(888) 394-2349[USA/OTA] seed phrase with the same care you would use for a high-value physical asset like a deed or a passport.
